

How to Elect a Class Representative

Each class should elect a class representative and a substitute.

- The students that want to become class representative raise their hands. The lecturer writes the candidates' names on the board.
- The candidates get one minute to present themselves in front of the class and why they should be elected.
- When all candidates are done with their presentation, the lecturer makes sure that everyone in the class has a note to write on.
- The students write the name of the candidate they want to vote for. The lecturer collects and counts the votes.
- The winners are announced to the class. The number of votes is not announced but can be given to the candidates after the election is done if they ask for it.
- The students that are elected class representative and substitute both have to register at [Kultillitsvalgt - Studentdemokratiet \(sdsn.no\)](https://www.kultillitsvalgt.no).
